16.	United Utilities Scientific Services	UKAS No. 1494	✓		✓	
17.	Wessex Water Scientific Centre	UKAS No. 0905	✓	Not Salmonella	✓	

Soil extractable P analysis

Until the 1st January 2020, Scheme Applicants and Scheme Members may rely upon soil extractable P analysis (only) provided by third parties (e.g. farmers and agronomists); so long as they are satisfied with the source data (e.g. have been provided with evidence of testing). In this scenario (of third party data provision) the analysis does not have to be provided by an ABL approved laboratory.

Please refer to the ABL Laboratory Protocols for conditions of approval. This is available on the BAS website <https://assuredbiosolids.co.uk>
